

Functional Specifications.

Guardian Life
Sprints 1, 2, 3 & 4 - Guardianlife.com Redesign
September 29, 2014

Revision History

REVISION #	CHANGE DETAIL	DATE	AUTHOR	COMP UPDATE?
R0.1	1st draft of Sprint 1 Functional Specs completed.	August 7, 2014	Robert Santore	N/A
R0.2	2nd draft of Sprint 1 Functional Specs completed.	August 7, 2014	Robert Santore	N/A
R0.3	3rd/Final draft of Sprint 1 Functional Specs completed.	August 8, 2014	Robert Santore	N/A
R1.0	Final version of Sprint 1 Specs created.	August 14, 2014	Robert Santore	N/A
R2.0	First draft of Sprint 1 & 2 Functional Specs is completed. We corrected the following errors: - Two and three-up modules must have CTAs, in fact these elements are optional - There was a copy and paste error with the three-up module saying that images could be left or right aligned	August 20, 2014	Robert Santore	N/A
R3.0	1) First draft of Sprint 1, 2 & 3 Functional Specs is completed. The specs for the following pages/content is added to the previous document: - Find a Financial Rep Page - Find a Guardian Agency / Employee Benefits Broker Page ..ER Search Results Page ..Agent Contact Page ..Confirmation Page (Agency-specific) ..Confirmation Page (General) 2) As a part of R3.0, we were asked by Acquia to add in a high-level styling page to this document. 3) As part of R3.0, we have updated the character count limits for textual components of all the Sprint 1 & 2 modules and pages.	September 3, 2014	Robert Santore	N/A
R3.1	Second draft of Sprint 1, 2 & 3 Functional Specs. Update to provide additional clarity around the following items: 1) M03 Product hub Intro Module (ID4) 2) M18 Article intro Module (Introduction and ID4) 3) Module Use in Templates	September 5, 2014	Robert Santore	N/A
R3.2	Version 3.1 of Sprint 1, 2 & 3 Functional Specs is created with the following updates: 1) Modules 33 to 39 are added to describe the new templates. 2) Template Structure specs are added for the following new templates: - Find an FR/Broker/Agency Page - Search Results Page - Agency Contact Page - Confirmation Page 3) Find an FR Page Flow is added as Appendix D. 4) Modules 33 to 39 and new templates are added in Module Use in Templates table on page 36. 5) Updates made to Appendix A: Image Size Rules. 6) PSD file names are added as Appendix E.	September 12, 2014	Robert Santore	N/A
R4.0	Version 4.0 of Functional Specs document is created. This document contains specs of the sprints 1, 2, 3 & 4. The following were added to the document: - Homepage modules & template specs - Contact Us modules and template specs - Updated Module Use in Tempaltes table - Updated Image Size Rules table (Appendix A) - Updated Find an FR module (full-bleed version specs are added)	September 18, 2014	Robert Santore	N/A
R4.1	Version 4.1 of Functional Specs document is created. This document contains specs of the sprints 1, 2, 3 & 4. The following were added to the document: - Updated Find an FR Module (which includes the full-bleed version specs) - Merril Prospective microsite specs - Variable Annuities specs	September 19, 2014	Robert Santore	N/A
R4.2	Resolved outstanding specs around character counts for M06, M17 Updated the PSDs table in the appendix. Style Guide is cross-referenced for M01 to M16.	September 23, 2014	Robert Santore	N/A
R4.3	Made updates based on 9/24/2014 feedback from Acquia & Guardian on v4.2	September 26, 2014	Robert Santore	N/A
R4.4	Added Style Guide references for the remaining module components.	September 29, 2014	Robert Santore	N/A

Responsive and Modular Approach.

Responsive Design Approach

The Guardianlife.com redesign will be optimized so that prospects, distributors, and general visitors of the site can have a useful experience regardless of the device or screen resolution they are viewing it on.

For the redesign, the following breakpoints and viewports have been defined:

320px: This is the minimum viewport size that will be supported by the site. Screen widths smaller than 320px will not result in further responsive layouts.

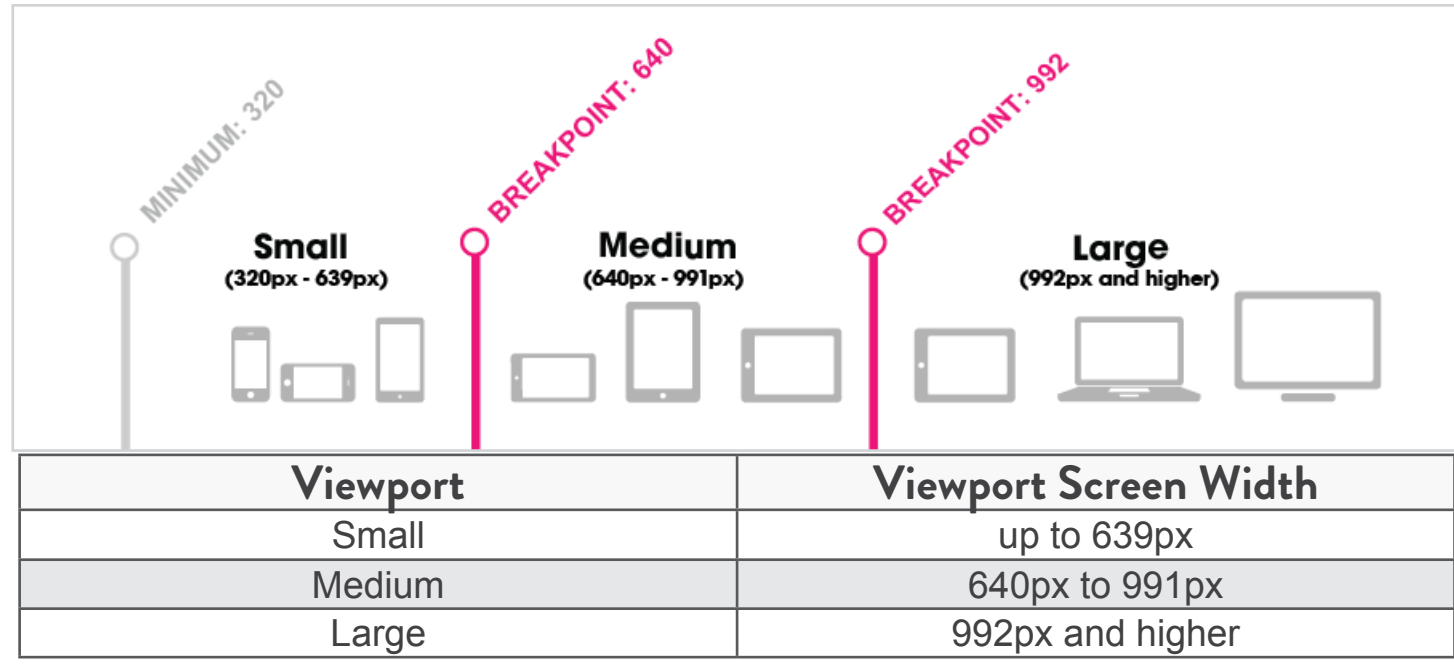

640px: This breakpoint delineates the boundary between the small and medium viewports. This breakpoint was chosen to maintain a consistent experience when switching between portrait and landscape view on a range of smaller devices. (ref: <http://viewportsizes.com/>).

992px: This breakpoint delineates the boundary between the medium and large viewports. This breakpoint was selected based on current trends in screen resolution. (ref: http://www.w3schools.com/browsers/browsers_display.asp)

1260px: This breakpoint represents the point at which the fluid layout will stop scaling dynamically. Beyond this point, the site will be centered positioned within the browser window.

Fluid design will also be a part of the responsive approach for the site. Throughout the design process, visual designers will work closely with front-end developers to define scaling rules within the established grid system.

Please refer to the Guardian Responsive approach memo for further background details.

Modular Design Approach

We have followed a modular design approach for this project. The modular design approach has several benefits:

- Each template is comprised of a series of modules. This allows for design flexibility when building pages in the CMS.
- One of our main principles while designing these templates is to keep the modules very flexible to accommodate for different use cases.

Project-specific Responsive Design Considerations

Responsive Treatment for Guardian Microsites
 Responsive design delivery for Guardian microsites (www.guardiananytime.com, <http://401k.guardianlife.com/>, etc.) is out of scope for this project. Redesign will provide links to the microsites that should open in new a tab/window.

Leveraging device-native functionality
 Whenever possible, we will use standard controls so that we can take advantage of device-native functionality (e.g. touch interactions). However, we will not be building an adaptive system where design and user experience may change based on differing contexts, capabilities or user objectives. For example, the site will function similarly regardless of device type, physical context, bandwidth limitations or user identification.

Device Parity Where Possible
 Designs produced will aim for device parity across all devices when possible. However in some instances limitations or constraints within a viewport or device may result in the need for an alternate design solution that deviates from the other viewports. Such instances will be highlighted and documented during the design process as they occur.

Style Guide & Prototype

A Style Guide and an HTML Prototype for this project has been created, which will be delivered with this functional specs document. The Style Guide is created to specify the design directions for the components used in the modules. The prototype is created to demonstrate how the site scales responsively through the various viewports. Please refer to the Style Guide and the prototype for further details on design direction and site interaction.

Project-specific Responsive Considerations (cont'd)

The following table lists out the pages within the Guardianlife.com redesign that are managed by third party vendors as well as their responsive treatments for the project.

Guardian Page	Third Party Vendor	Responsive Treatment
Variable Annuities Prospectuses and Financial Reports: http://prospectuses.guardianlife.com/GuardianLife/ProspectusesandFinancialReports/	Merrill Corporation	No responsive treatment. Design delivery limited to header and Guardian logo.
Product Prospectus PDF Viewer http://prospectuses.guardianlife.com/GuardianLife//ProFreedomC/	Merrill Corporation	No responsive treatment. Design delivery limited to header and Guardian logo PDF viewer should open in a new tab/window.
Investment Option PDF Viewer http://prospectuses.guardianlife.com/GuardianLife//00162T811/index.html?vap_ref=The%20Guardian%20Investor%20ProFreedom%20Variable%20Annuity%20C%20Share&uref=http://prospectuses.guardianlife.com/GuardianLife//ProFreedomC/	Merrill Corporation	No responsive treatment. Design delivery limited to header and Guardian logo. PDF viewer should open in a new tab/window.
Calculators (Various) http://www.guardianlife.com/Calculators/index.htm	XML	No responsive treatment as there will be no integration of calculators in the redesign.
Annuities Pricing and Performance http://www.guardianlife.com/ProductPortfolio/InvestmentRetirementProducts/Annuities/VariableAnnuities/PricesandPerformance/index.htm	Guardian Investor	No responsive treatment. Design delivery limited to header and Guardian logo.
Corporate Career Listings https://guardian.taleo.net/careersection/gl_ex/jobsearch.ftl?lang=en	Taleo	No responsive treatment. Redesigned site will provide a link to the page. Page should open in a new tab/ window.

Global Modules.

M01 - Header Module

Header - Large

Header - Small/Medium

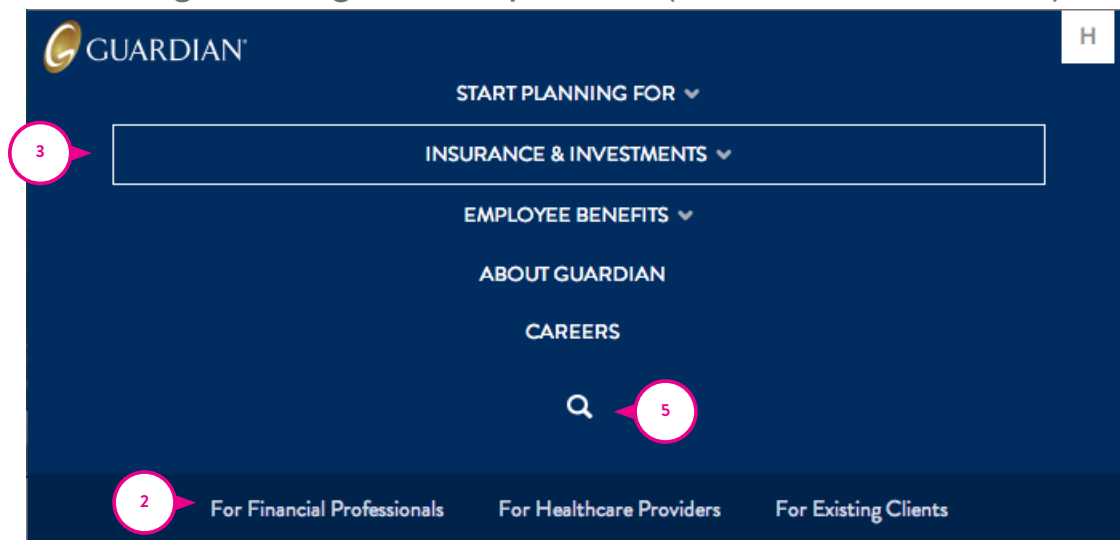

Search Field Exposed - Large View

When the first breakpoint of 992px is reached, the header navigation will transition to the hamburger menu. Below is a depiction of the hamburger navigation menu in expanded state:

Hamburger Navigation Expanded (Medium/Small View)

Utility Hat Expanded (Small/Medium View)

ID	NAME	DETAIL	ACTION	GUARDIAN
1	Guardian Logo (Link)	The Guardian Logo is displayed on top left of the header. The link is only inactive when users are already on the homepage/landing page.	On click/tap, the user is directed to the homepage.	
2	Utility Hat	The utility hat is displayed to the top-right corner of the header and contains the following links: <ul style="list-style-type: none"> - For Financial Professionals - For Healthcare Professionals - For Existing Clients - Find a Representative - For large viewport, when the user clicks on a utility hat item, a drawer will expand under the utility hat menu pushing the remaining page content down. - For medium and small viewports (viewport < 992px), the utility hat is displayed in the hamburger menu under the navigation items. - In small viewport, the "For Existing Clients" links is displayed as the first of the utility hat. 	On click/tap on a utility hat link, the utility drawer or menu opens, where users can click on a menu item/link, which takes the users to the corresponding page.	
3	Primary Navigation	The primary navigation is displayed under the Guardian logo to the left of the header and contains the following primary navigation categories: <ul style="list-style-type: none"> - Insurance & Investments - Employee Benefits - Start Planning For - Note: For medium and smaller viewports (viewport < 992px), the primary navigation becomes the hamburger drop-down navigation. 	On click/tap on a primary navigation link, the user is directed to the corresponding page.	
4	Corporate Pages Links	Corporate Pages links are displayed to the right of the primary navigation and under the utility hat. It contains the following links: <ul style="list-style-type: none"> - About Guardian - Careers 	On click/tap on a utility navigation link, the user is directed to the corresponding corporate page.	
5	Search Button	The search button is always displayed in the header. In large viewport the search button is always in display while in small/medium viewports the search button is hidden in the hamburger navigation drop-down.	On click/tap, opens the search field where users can enter search terms and trigger a site search (See 5c).	

Utility Hat Expanded (Large View)

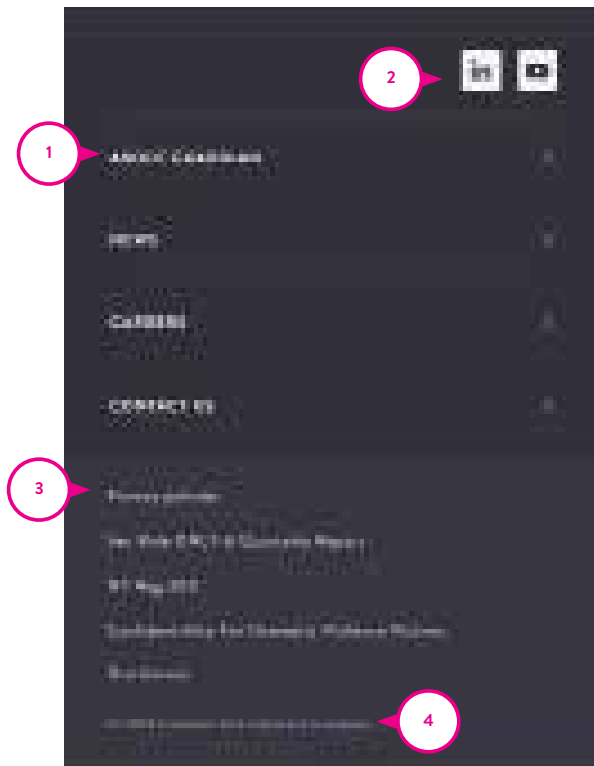

M02 - Footer Module

Footer - Large/Medium

Footer - Small

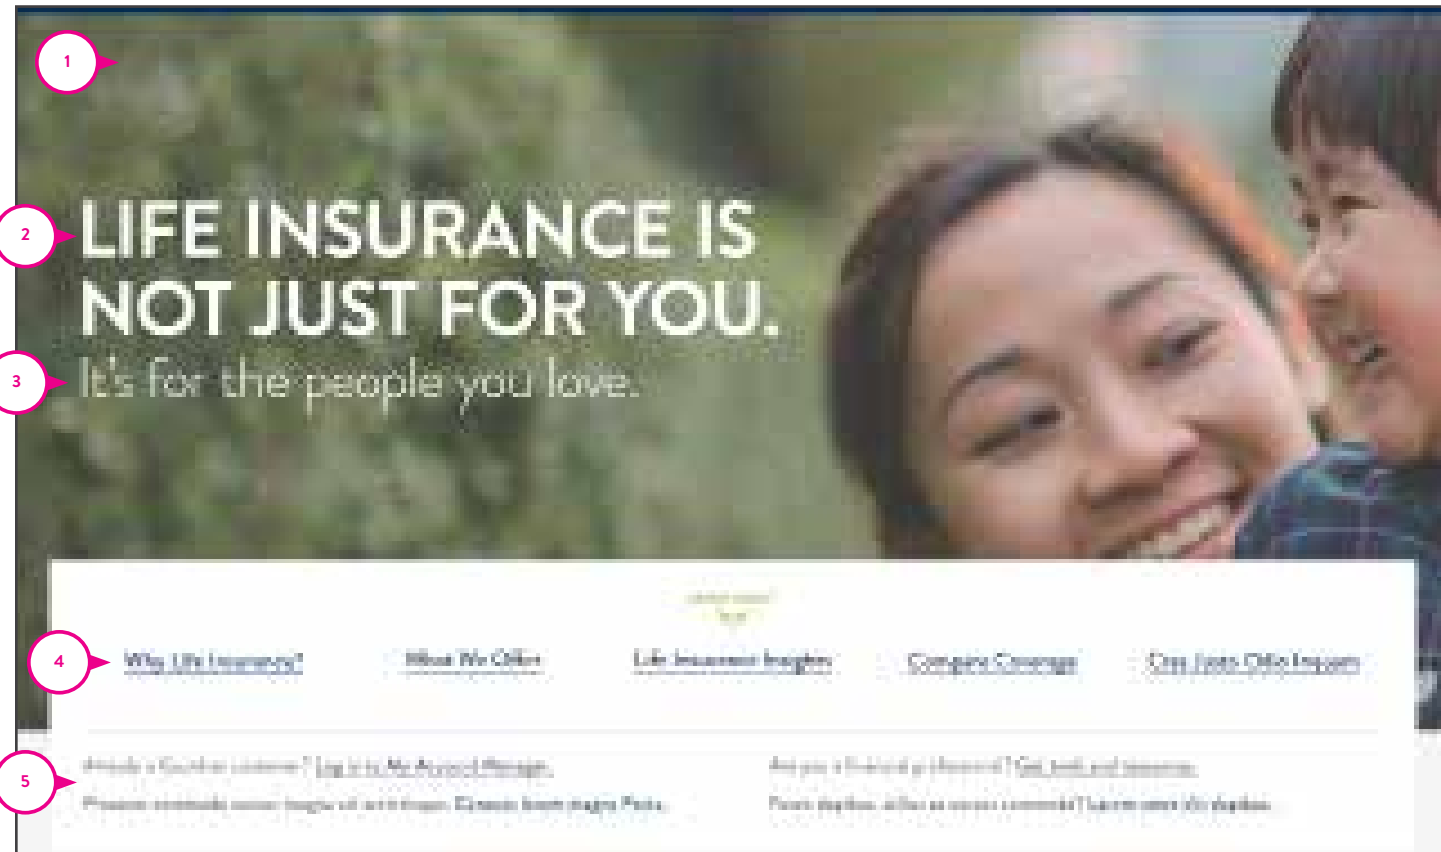

ID	NAME	DETAIL	ACTION	GUARDIAN
1	Primary Footer Navigation	The primary footer navigation is displayed on top left corner of the footer and contains links to the following pages: - About Guardian - News - Careers - Contact Us	On click/tap, directs the user to the corresponding page.	
2	Social Media Layer	Social Media layer displays buttons Guardian's LinkedIn and Youtube profile pages. The URLs for these profile pages are as follows: - LinkedIn URL: https://www.linkedin.com/company/the-guardian-life-insurance-company-of-america_164085?trk=company_logo - YouTube URL: https://www.youtube.com/guardianlife	On click/tap, directs the user to the corresponding Guardian social media profile page.	
3	Footer Utility Links	The Footer Utility Links are displayed under the footer primary navigation and contains the following links: - Privacy Policy - Disclosures - See Rule 11AC1-6 Quarterly Report - NY Reg 200 - Confidentiality For Domestic Violence Victims Note: For medium and smaller viewports (viewport < 992px), the primary navigation becomes the hamburger drop-down navigation.	On click/tap, directs the user to the corresponding page.	
4	Static Copyright Disclaimer	Static copyright disclaimer is displayed at the bottom left portion of the footer.	N/A	

Modules.

M03 - Product Hub Intro Module

The Product Intro Module allows user to understand what content is on the page. Always starts the product hub page.

LARGE/MEDIUM VIEW

SMALL VIEW

ID	NAME	DETAIL	ACTION
1	Hero Image	<ul style="list-style-type: none"> - Required - Alignment is left or right - Please refer to Appendix A (Image Size Rules) for details about image sizes and dimensions. 	N/A
2	Headline	<ul style="list-style-type: none"> - Required - Large/Medium: (Style Guide pg.10 / #1) - Small: (Style Guide pg.10 / #3) - Color variation: white or dark gray - Placed on the image for large/medium, placed under the image for small viewport. - Character limit = 50. 	N/A
3	Sub-header	<ul style="list-style-type: none"> - Optional and always placed under the headline. - Color variation is inherited from the 'Headline' - Large/Medium: (Style Guide pg.11 / #1) - Small: (Style Guide pg.11 / #3) - Character limit = 60. 	N/A
4	Table of Contents	<ul style="list-style-type: none"> - Required - Character limit is 36 per menu item - Displayed if more than 2 and less than 5 sections available. If only one section defined, then no TOC is displayed. Display formats are as follows: <p>LARGE VIEW: All TOC links are displayed in one row.</p> <p>MEDIUM VIEW: 5 sections --> 3 links on top and 2 links under (all centered) 4 sections --> 2 links on top and 2 links under (all centered) 3 sections --> 2 links on top and 1 link under (all centered) 2 sections --> 2 links in one line and centered 1 section --> not displayed</p> <p>SMALL VIEW: All TOC links are displayed stacked vertically in one column.</p> <ul style="list-style-type: none"> - The copy here in both viewports FPO and should not be treated as responsive content. - The link text of each TOC item will be identical across 	On click/tap on a TOC item, the page scrolls down to the corresponding section.
5	Redirect Links	<ul style="list-style-type: none"> - Optional - Upto 4 redirect links - The redirect links are not displayed for small viewport 	On click/tap, takes to user to the target URL defined for the link.

M04 - Topic Hub Intro Module

Allows user to understand what content is on the page. Always starts the topic hub page.

LARGE/MEDIUM VIEW

SMALL VIEW

ID	NAME	DETAIL	ACTION
1	Image	- Required - Please refer to Appendix A (Image Size Rules) for details about image sizes and dimensions.	N/A
2	Headline	- Required - Large/Medium: (Style Guide pg.10 / #2) - Small: (Style Guide pg.10 / #3) - Color variation: white or dark gray - Placed on the image for large/medium, and under the image for small viewport. - Character limit is 35.	N/A
3	Sub-header	- Optional - Large/Medium: (Style Guide pg.11 / #1) - Small: (Style Guide pg.11 / #3) - Color variation is inherited from the 'Headline' - Character limit is 45.	N/A
4	Section Title	- Required - Large/Medium/Small: (Style Guide pg.16 / #1) - Character limit is 50	N/A
5	Intro Body	- Required - Character limit 350	N/A

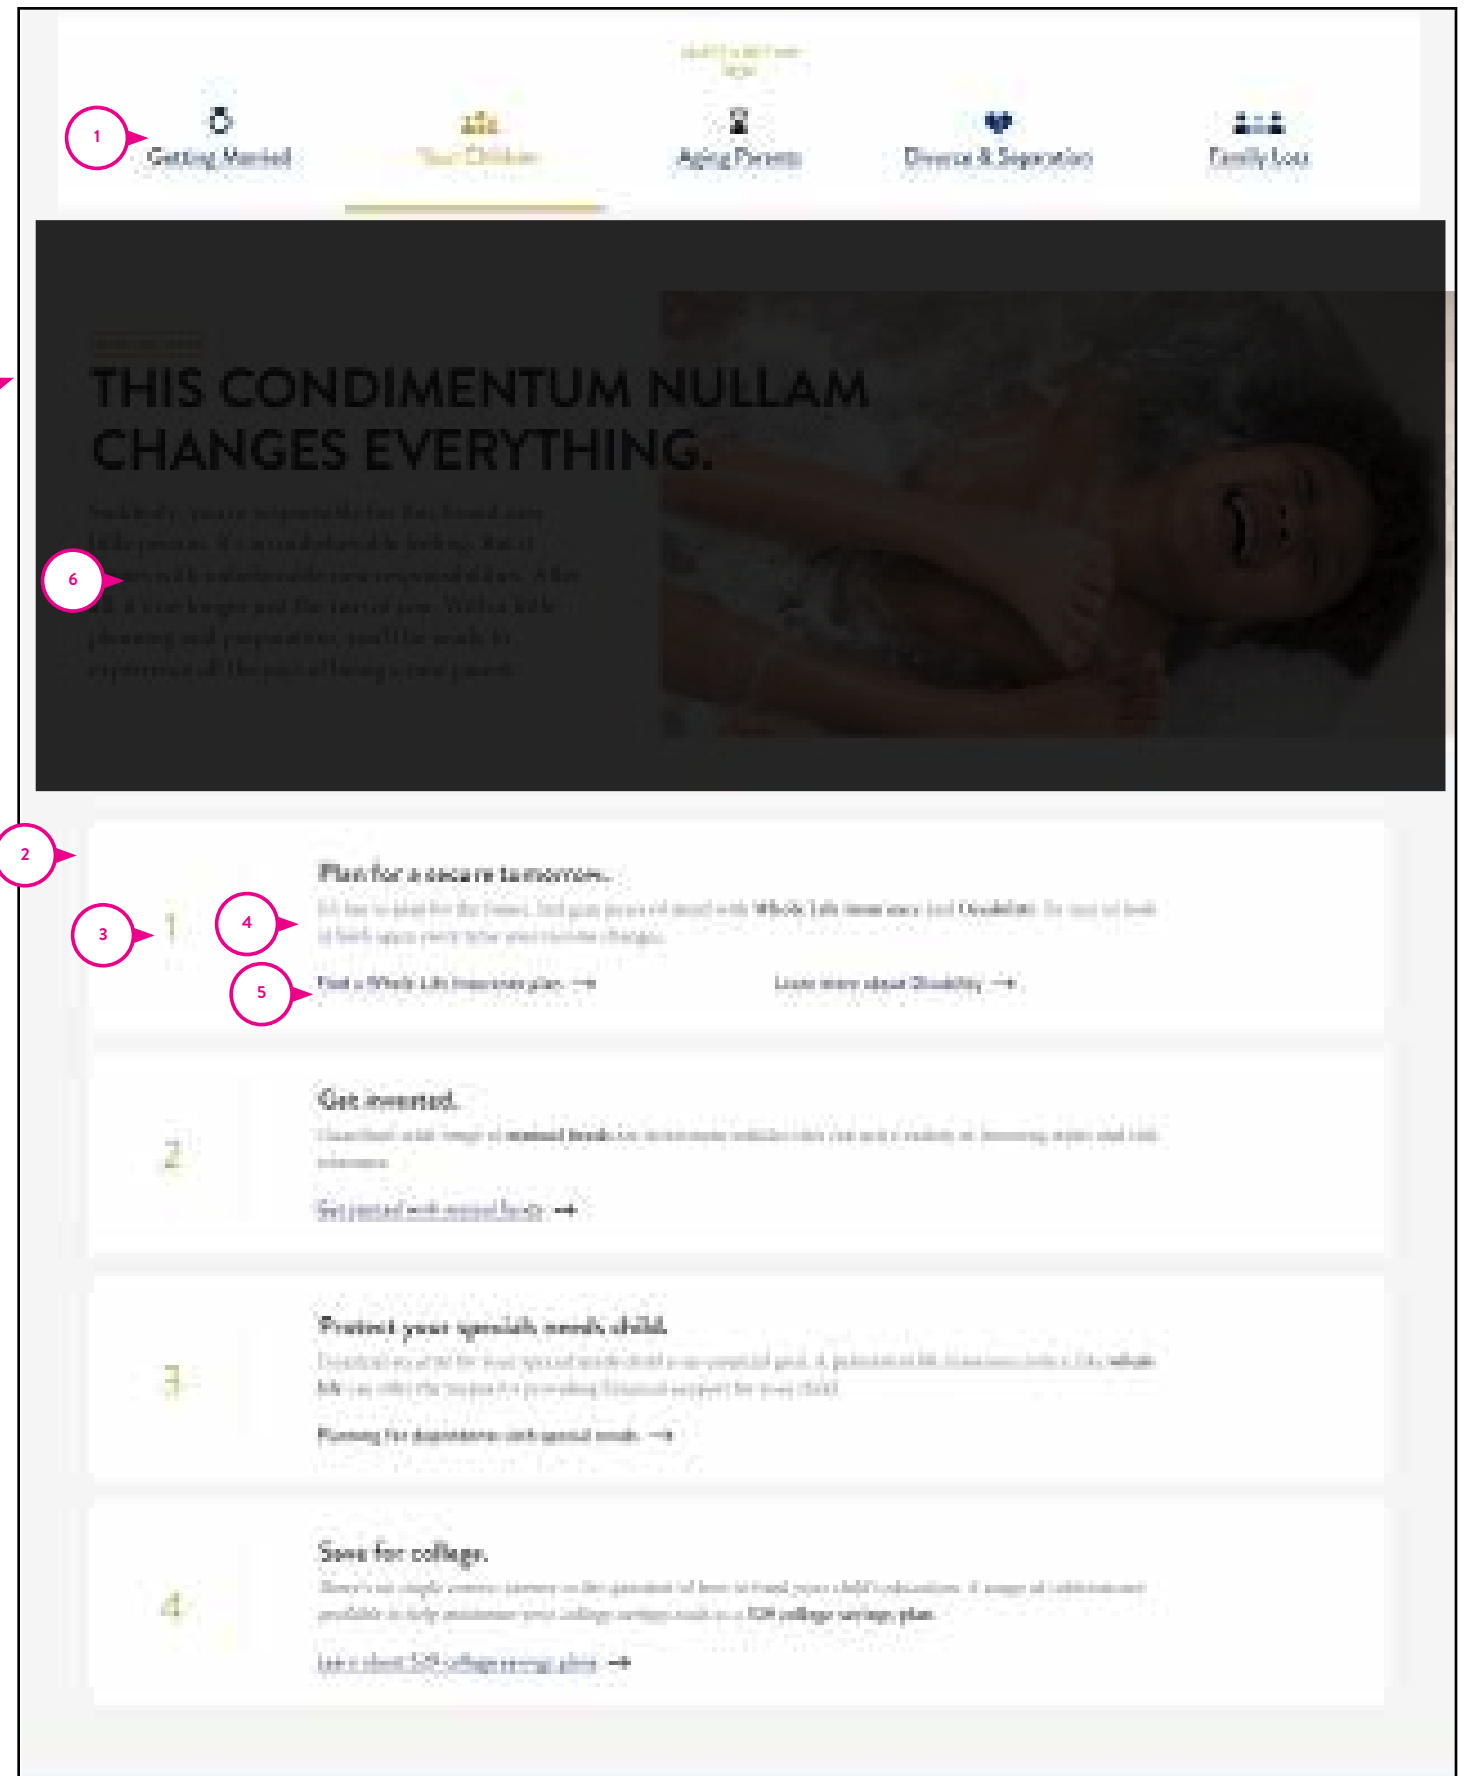

M05 - Topic Index Module

The Topic Index Module is to display checklist content together. Only displays in a menu on the page if there are 2 or more checklist groups. Only Statement Module is recommended to be embedded within the Topic Index Module content area.

LARGE/MEDIUM VIEW

Embedded Statement Module

ID	NAME	DETAIL	ACTION
1	Topic Index	<ul style="list-style-type: none"> - Required - Large/Medium/Small: (Style Guide pg.15 / #7) - Displays if 2 or more topic links. - Character limit is 45 per menu item <p>Note: The arrow and "select a section" label on top of the module has no functionality.</p>	<p>Clicking/Tapping on a Topic link in the Topic Index, loads the content well with topic boxes associated with that topic link. Please refer to the prototype for the transitions and effects.</p> <p>By default the first topic will be selected in the index.</p>
2	Topic Boxes	<ul style="list-style-type: none"> - Minimum 1 (required) maximum 4 topic boxes are displayed per topic. - Contains static text and links - Character limit for title is 55. 	N/A
3	Topic Product Number	<ul style="list-style-type: none"> - Required - Character limit is 2. 	N/A
4	Topic Product Description	<ul style="list-style-type: none"> - Required - Large/Medium/Small: (Style Guide pg.13 / #3) - Character limit is 50 	N/A
5	Topic Product CTA Links	<ul style="list-style-type: none"> - Required - Minimum 1 maximum 2 CTA links - Character limit 45 per link 	On click/tap takes the user to the target URL defined for the link.

M06 - Section Header Module

This module groups content modules together by topic.

LARGE/MEDIUM VIEW

SMALL VIEW

PRODUCT INTRO MODULE > TOC ANCHOR LINKS

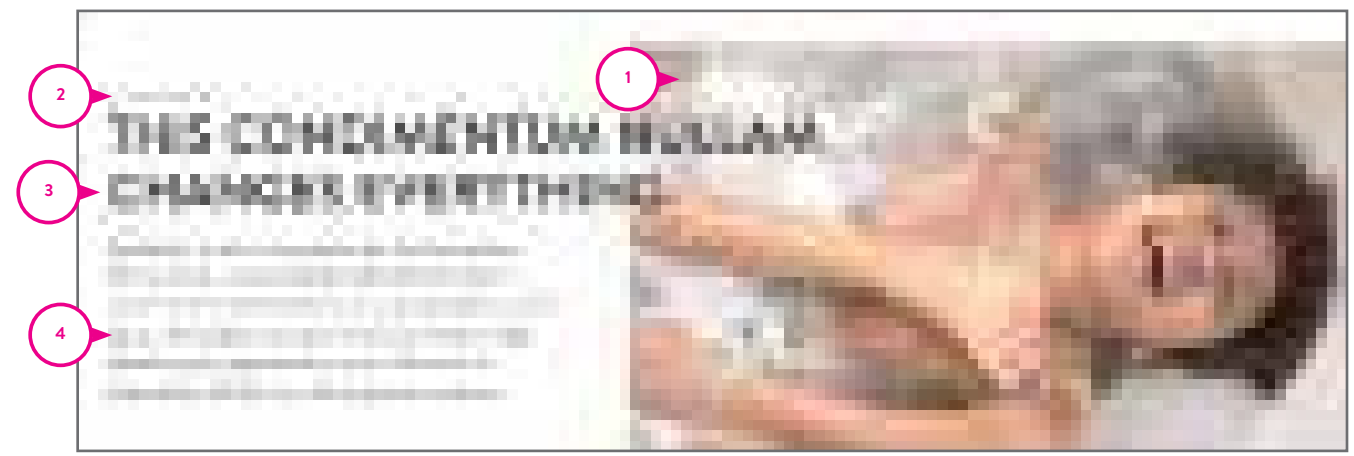

ID	NAME	DETAIL	ACTION
1	Section Header	- Required - Large/Medium/Small: (Style Guide pg.16 / #1) - Character limit is 50	N/A
2	Section Sub-header	- Optional - Large/Medium/Small: TBD - No color variation - Character limit is 200	N/A
3	Anchor Link Name	- Required - Large/Medium/Small: (Style Guide pg.15 / #7) - Each anchor link represent one of the available sections of the page. - The anchor link name can be different than the actual section name. - Character limit is 45	N/A
N/A	Order	- Required	N/A

M07 - Statement Content Module

This module allows Guardian to make a static statement about the section. It's purely information and only lives on this page, doesn't link off to other pages.

LARGE/MEDIUM VIEW

SMALL VIEW

ID	NAME	DETAIL	ACTION
1	Image	- Optional - Displayed left or right aligned - Please refer to Appendix A (Image Size Rules) for details about image sizes and dimensions.	N/A

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

The Product Hub Page will be built from global modules, topic hub specific modules and content modules. There will be one instance of this page. The following table details the functionality of the template:

ID	NAME	DETAIL
1	Header	- Standard Header Module
2	Product Hub Intro	- Product Hub Intro Module will display the Table of Contents with links to each page section.
3	Section(s)	- Each section has a section header, which is displayed on top of the section - Each available section will be displayed as an item of the Table of Contents (TOC) portion of the Product Intro Hub page. The label of the TOC links can be overwritten.
4	Section with Content Module	- Minimum of 1 (required) and maximum of 5 sections are required for a template. - Each section will have minimum 1 (required) and maximum 3 content modules. - Example: See the visual below for a Product Hub page with 2 sections, each section with 2 content modules. For this specific configuration, 2 TOC links will be displayed, each for one of the sections.
5	Find a Rep Module	- Standard Functional Module: Find a Rep Module will be displayed after the very last section of the page.
6	Link Farm	- Standard Link Farm Module with a number of links is displayed at the bottom of the page.
7	Disclaimer Module	- Standard Functional Module: Disclaimer Module is displayed at the bottom of the page.
8	Footer Module	- Standard Footer Module is always displayed at the very bottom of the page.

SAMPLE SECTIONS FOR CONTENT WELL (LARGE VIEWPORT)

Section with 2 modules:
a Statement Module and a
3-up Content Module.

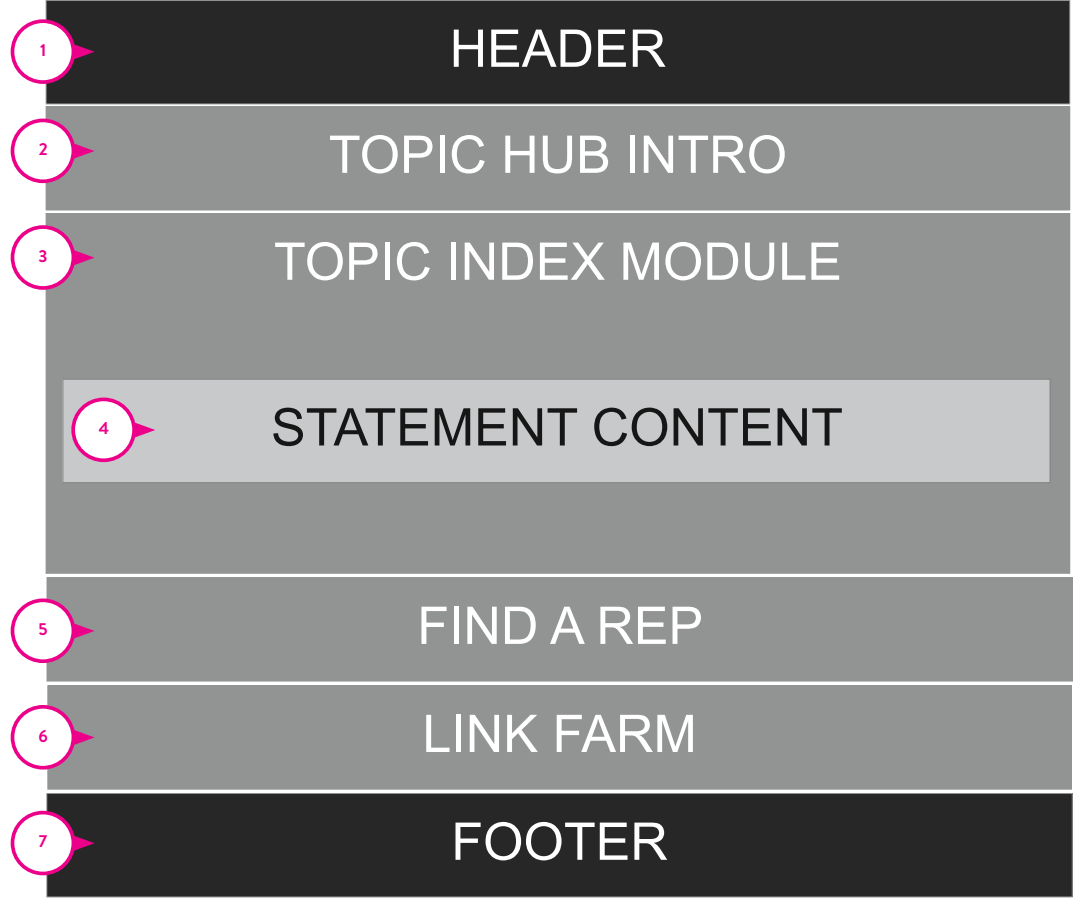

Section with 2 modules:
One-up and
Two-up content modules.

Topic Hub Page

TEMPLATE STRUCTURE

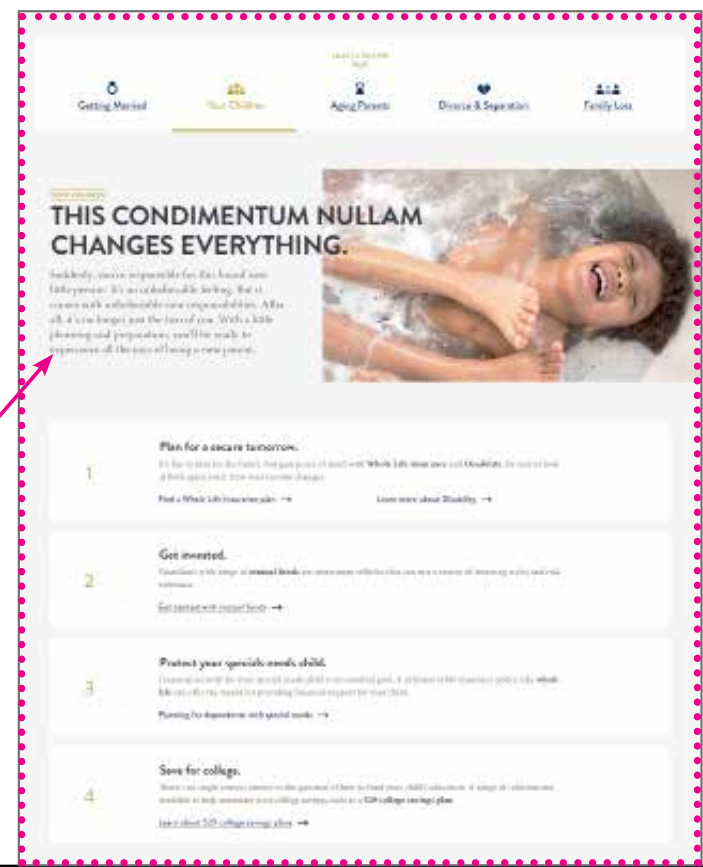

TEMPLATE REQUIREMENTS

The Topic Hub Page will be built from global modules, topic hub specific modules and content modules. There will be one instance of this page. The following table details the functionality of the template:

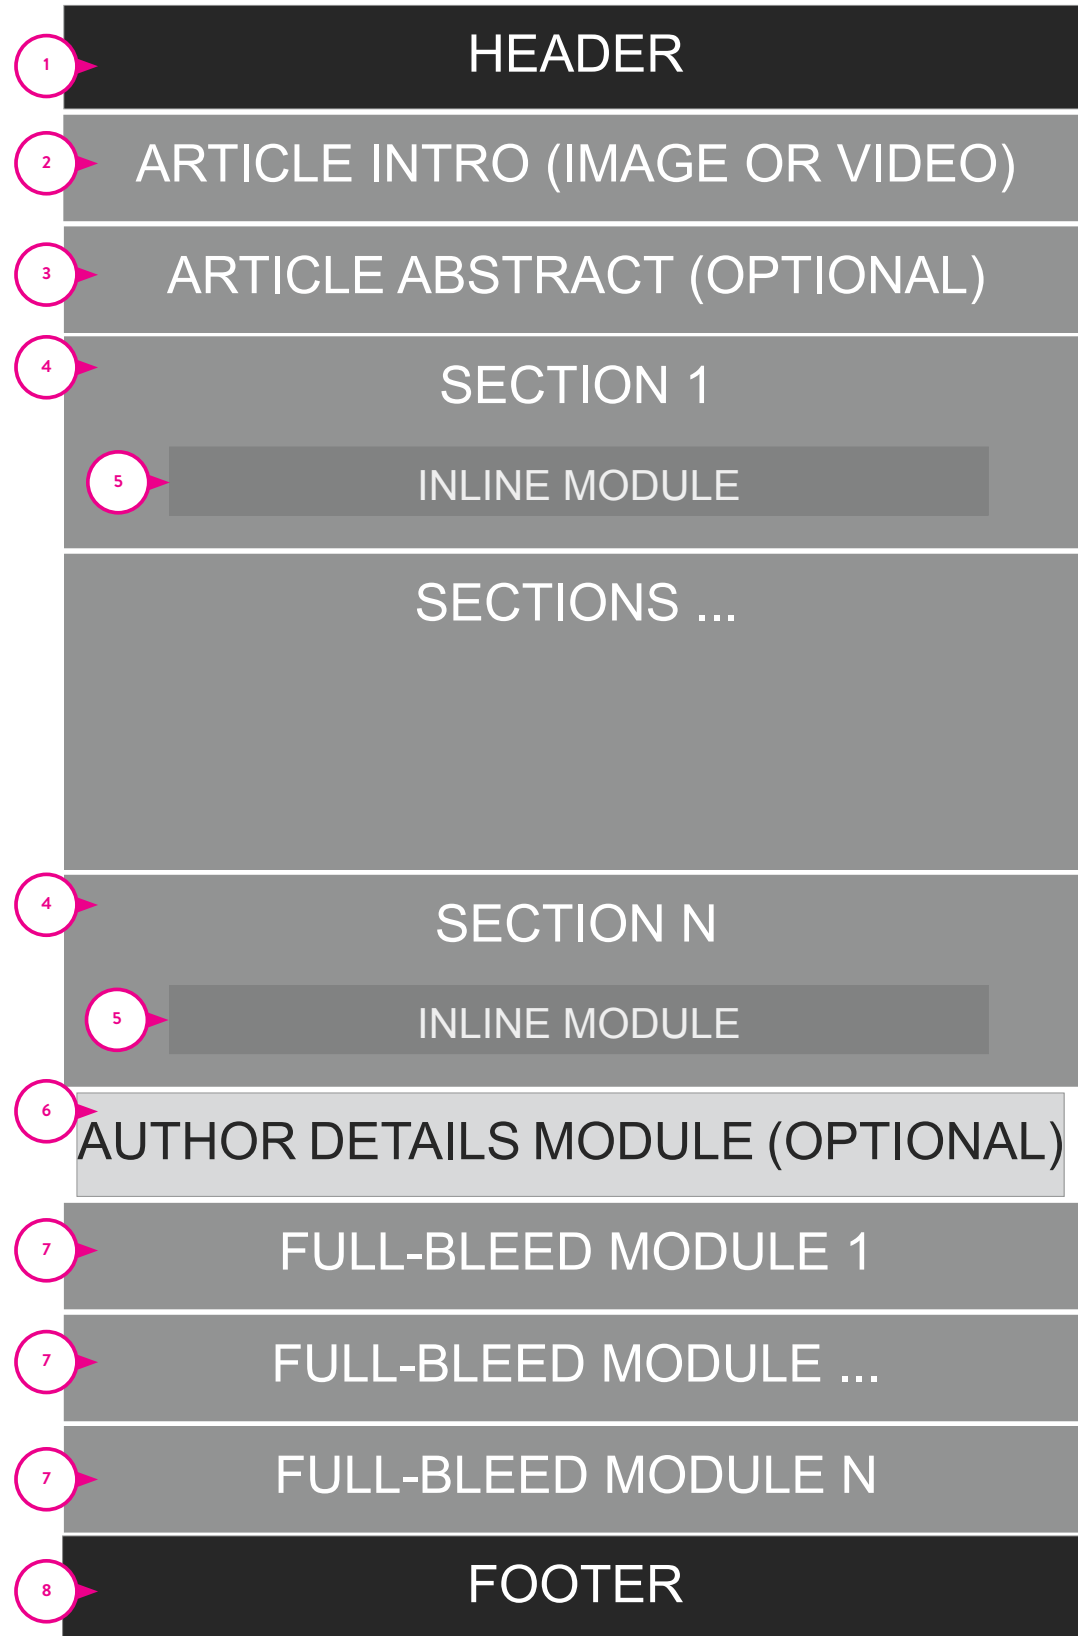

ID	NAME	DETAIL
1	Header	- Standard Header Module will always be displayed on top of the page.
2	Topic Hub Intro	- Topic Intro Module will be the 2nd module of the page.
3	Topic Index Module	- Each Topic will have 1 (minimum requirement) to 5 sub-topics which are displayed in rectangular boxes that are stacked together vertically. - Clicking/Tapping on a link in the Topic Index portion of the module will populate the content well of the module with the corresponding sub-topic boxes.
4	Embedded Statement Module	- Standard Statement Module - Embedded within the Topic Index Module
5	Find a Rep Module	- Standard Functional Module: Find a Rep Module will be displayed after the very last section of the page.
6	Link Farm	- Standard Link Farm Module with a number of links will be displayed at the bottom of the page.
7	Footer Module	- Standard Footer Module is always displayed at the very bottom of the page.

Topic Index Module with embedded Statement Module

Article Template

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

An article template can be built from global modules, article-specific modules and functional modules. There will be multiple instances of this page (multiple articles). The following table details the functionality and rules of the article page template:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module will always be displayed on top of the page.
2	Article Intro Module	- Required - Displayed after the Header Module - Admin has the option to add the Author Details module (if required data is available) and link the Article Intro Module's 'Author Name' to this module. See ID6 on this table for more details about Author Details module.
3	Article Abstract Module	- Optional - Displayed after the Article Intro and before the first article section.
4	Article Section	- Optional - No max number of sections to display in an article
5	Inline Module	- Optional for a section - Maximum 1 inline module per section
6	Author Details Module	- Optional - Displayed after the last article section. If no article section available, then displayed after the Article Intro module.
7	Full-bleed Module	- Required (minimum 1) - The following modules can be used here only: Full-bleed Downloads, Full-bleed Calculators, 2 Up Content Module, 3 Up Content Module, and 4-5 Up Content module - Displayed after the last article section (or Author Details module if turned on) and before the Footer Module - No max number of full-bleed modules to display
8	Footer Module	- Required - Standard Footer Module is displayed at the very bottom of the page.

Find a Financial Representative Page Template

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

A Find a Financial Representative Template can be built from Find an FR-specific modules. There will be one instance of this page. The following table details the functionality and rules of the Find an FR page:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module will always be displayed on top of the page.
2	Find an FR/Broker Intro Module	- Required - Displayed after the Header Module - Displayed with the sub-copy or video sections
3	Contact Request Form Module	- Required - Displayed after the Find an FR/Broker Intro module and before the footer module.
4	Footer Module	- Required - Standard Footer Module is displayed at the very bottom of the page.

Find a Broker/Agency Page Template

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

A Find an Agency/Broker Template can be built from Find an FR-specific modules. There will be one instance of this page. The following table details the functionality and rules of the Find an Agency and Find an Employee Benefits Broker pages:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module will always be displayed on top of the page.
2	Find an FR/Broker Intro Module	- Required - Displayed after the Header Module - Displayed without the sub-copy or video sections
3	Contact Request Form Module	- Required - Displayed after the Find an FR/Broker Intro module and before the footer module.
4	Footer Module	- Required - Standard Footer Module is displayed at the very bottom of the page.

Search Results Page

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

The Search Results Template can be built from Find an FR-specific modules. There will be one instance of this page. The following table details the functionality and rules of the Search Results template:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module will always be displayed on top of the page.
2	Search Results Page Module	- Required - Displayed after the Header Module
3	Footer	- Required - Standard Footer Module is displayed at the very bottom of the page.

Agent Contact Page

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

The Agency Contact Template can be built from Find an FR-specific modules. There will be one instance of this page. The following table details the functionality and rules of the Agency Contact page:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module will always be displayed on top of the page.
2	Agent Contact Intro Module	- Required - Displayed after the Header Module
3	Contact Request Form Module	- Required - Displayed after the Agent Contact Intro Module and with profiling questions variation (see M34 ID 3c).
4	Google Maps API Module	- Required - Standard Google Maps API - Not displayed in small viewport
5	Footer	- Required - Standard Footer Module is displayed at the very bottom of the page.

Confirmation Page Template

TEMPLATE STRUCTURE

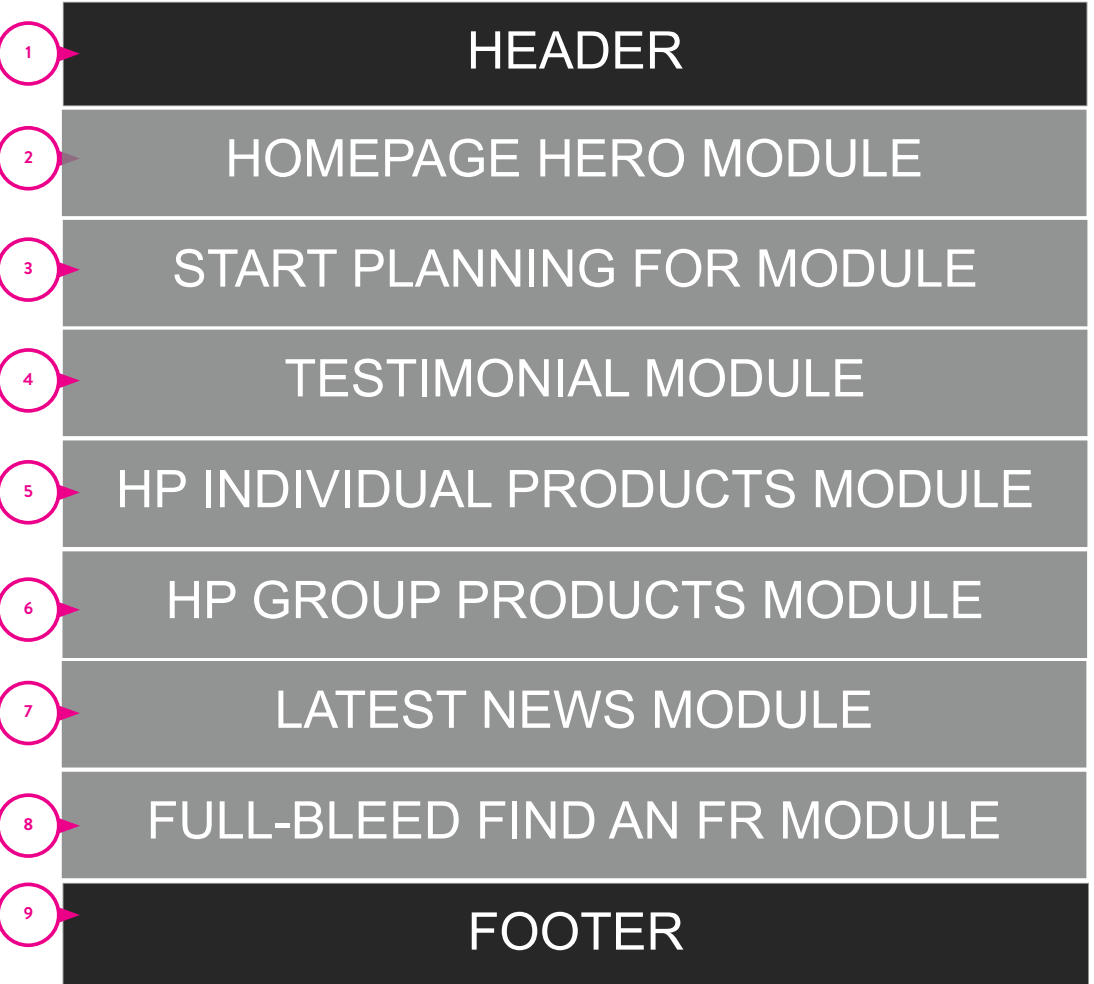

TEMPLATE REQUIREMENTS

The Confirmation Page Template can be built from Find an FR-specific and global modules. There will be one instance of this page. The following table details the functionality and rules of the Agency-specific and Generic Confirmation pages:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module will always be displayed on top of the page.
2	Confirmation Page Hero Module	- Required - Displayed after the Header Module
3	Confirmation Details Module	- Required - Displayed after the Confirmation Page Hero Module.
4	3-Article Content Module	- Required
5	Footer	- Required - Standard Footer Module is displayed at the very bottom of the page.

Homepage Template

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

The Homepage will be built from global modules, homepage-specific modules and content modules. There will be one instance of the homepage. The following table details the functionality of the template:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module is always displayed on top of the page.
2	Homepage Hero Module	- Required - Displayed after the Header Module
3	Start Planning For Module	- Required - Displayed after the Carousel Module.
4	Testimonial Module	- Required
5	One-article Content Module	- Required
6	NEW MODULE?	WHAT IS THIS? A NEW MODULE?
7	Latest News Module	- Required - Latest News Module will be displayed on top of the Find an FR Module.
8	Find an FR Module	- Required
90	Footer	- Required - Standard Footer Module is always displayed at the very bottom of the homepage.

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

The Contact Us will be built from global modules, contact-specific modules/forms and content modules. There will be one instance of this page. The following table details the functionality of the template:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module is always displayed on top of the page.
2	Homepage Hero Module	- Required - Displayed after the Header Module
3	General Contacts Module	- Required - Displayed after the Hero Module.
4	Contact Info Tabs Module	- Required - Displayed after the General Contacts Module.
5	Contact Request Form Module	- Required - Contact Request form is displayed without the Profiling Questions and Topic Selection Boxes - See M34 (Contact Request Form Module) for details.
6	Find an FR Module	- Required - Full-bleed version is displayed before the footer
7	Footer	- Required - Standard Footer Module is always displayed at the very bottom of the homepage.

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

The Merrill Prospectus page is a 3rd-party microsite, which is not responsive. There will be one instance of the this page. The existing Merrill Prospectus page will be reskinned and built from the following modules:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module is always displayed on top of the page.
2	Merrill Prospectus Module	- Required - Displayed between the header and footer modules and is a 3rd-party micro-site (not responsive).
3	Find an FR Module (Variation)	- Required - Find an FR Module is displayed with the following components suppressed: -- Sub-header -- Living Balance Sheet tout
4	Footer	- Required - Standard Footer Module is always displayed at the very bottom of the homepage.

FIND AN FR MODULE VARIATION FOR MERRILL PROSPECTUS PAGE

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

The Merrill Prospectus page is a 3rd-party microsite, which is not responsive. There will be one instance of this page. The existing Merrill Prospectus page will be reskinned and built from the following modules:

ID	NAME	DETAIL
1	Header Module	- Required - Standard Header Module is always displayed on top of the page.
2	Variable Annuities Module	- Required - Displayed between the header and footer modules and is a 3rd-party micro-site (not responsive).
3	Footer	- Required - Standard Footer Module is always displayed at the very bottom of the homepage.

Appendix.

Appendix A: Image Size Rules

The minimum required image sizes for the CMS are indicated in "LARGE VIEW" column for all the content module images. For retina display we need double the size of above-specified image sizes.

IMAGE	DISPLAY SIZE RULES	LARGE VIEW	MEDIUM VIEW	SMALL VIEW	CONSTANT?

Three-article Content Module Image	- One image (417 x 235) scales with the viewport width.	Width = 417px Height = 235px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
4/5-article Content Module Left Image	- One image (678 x 381) scales with the viewport width.	Width = 678px Height = 381px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
4/5-article Content Module Right Image	- One image (220 x 124) scales with the viewport width.	Width = 220px Height = 124px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Testimonials Module Image	- Height changes with large-to-medium transition. - Height seems to remain constant in span of a viewport (in large and medium viewports). - Width = entire screen width. - SMALL VIEW: 150x150 square image to fit the circular placeholder implemented	Width = 1260px Height = 420px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	VARIABLE
Content Feed Module Image	- One image (294 x 165) scales with the viewport width.	Width = 294px Height = 165px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Article Intro Module Image - Image	- One image (890 x 500) scales with the viewport width.	Width = 890px Height = 500px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Article Intro Module Image - Video	- One video still (910 x 512) scales with the viewport width.	Width = 910px Height = 512px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Article Intro Module Author Details - Author Image	- One image (70 x 70).	Width = 70px Height = 70px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Info-graphics Module Image	- One image width = 910px and height = variable that scales with the viewport width.	Width = 910px Height = Variable	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Confirmation Page Hero Image	- Height changes with each transition (larg to medium, medium to small transition). There are 3 different heights, one for each viewport. - Height remains constant in span of a viewport. - Width = entire screen width.	Width = 1260px Height = 315px	Width = 992px Height = 280px	Width = 640px Height = 120px	VARIABLE
Agency Logo	- One image (155 x 66) scales with the viewport width.	Width = 155px Height = 66px	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Homepage Hero Module Image	- Height changes with each transition (larg to medium, medium to small transition). There are 3 different heights, one for each viewport. - Height remains constant in span of a viewport. - Width = entire screen width.	Width = 1260px Height = 580px	Width = 992px Height = 456px	Width = 640px Height = 295px	VARIABLE
Homepage Group Products Square Image	- One image (540x540)	Width = 540 Height = 540	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Homepage Latest News Image	- One image (417x235) scales with the viewport width	Width = TBD Height = TBD	Scaled with the same aspect ratio	Scaled with the same aspect ratio	CONSTANT
Contact Us Hero Module Image	- Height changes with each transition (larg to medium, medium to small transition). There are 3 different heights, one for each viewport. - Height remains constant in span of a viewport. - Width = entire screen width.	Width = 1260 Height = 423	Width = 992 Height = 333	Width = 640 Height = 214	VARIABLE

Appendix B: Print-friendly Interface (Detail Pages)

When PRINT button is clicked/tapped on a detail page (for example article details page) then a print-friendly page opens in a new tab and the printer modal is triggered. The following components will be displayed in the print-friendly interface:

- All the images/infographics content that is tagged to be included in the print-friendly version (CMS setting)
- All the text content of the modules used in article sections

The following components are not displayed in the print-friendly interface:

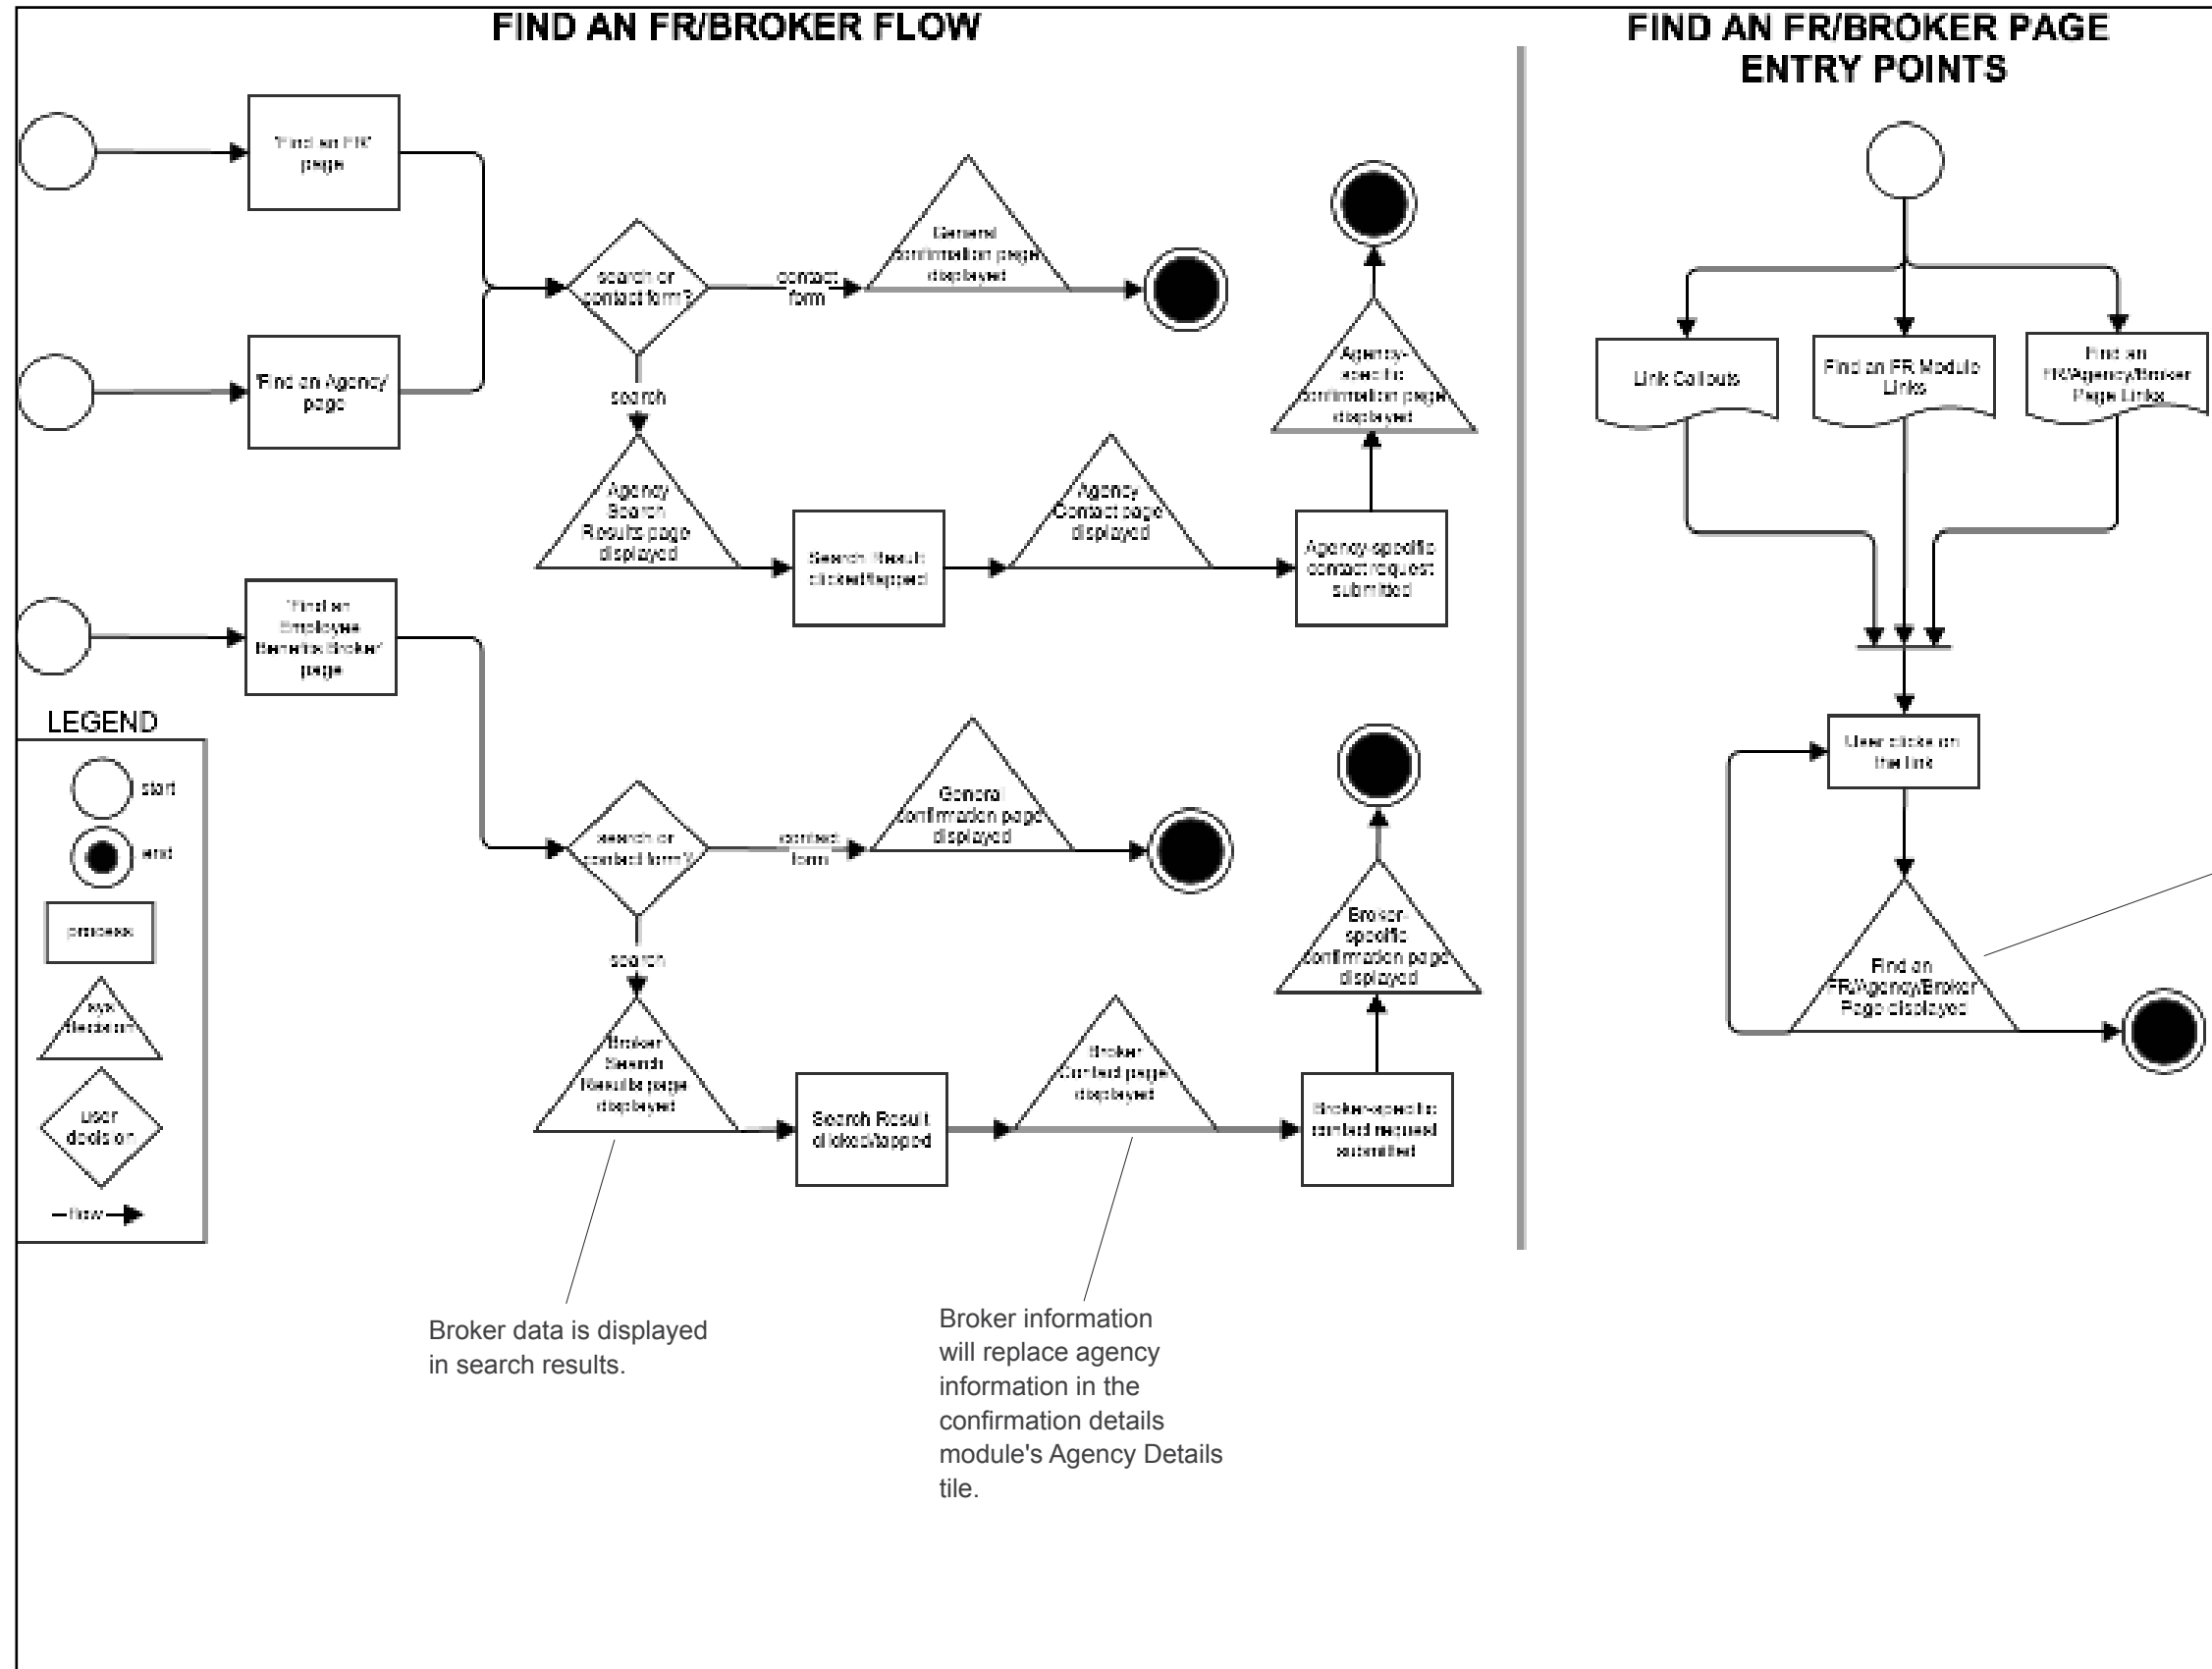

- Header & Footer modules
- Functional Modules such as Find an FR or State Selector modules.
- Backgrounds and background images
- Any functional components such as drop-downs/buttons
- All the meta title, data and keywords

Appendix C: High-level Style Reference

NAME	DETAILS
Navy	#002c5f
Accent Blue	#328abd
Blue-Grey	#6f91a9
Dark Grey	#363740
Light Grey	#5a5a5f
Gold	#c1a236

Appendix D: Find an FR Flow

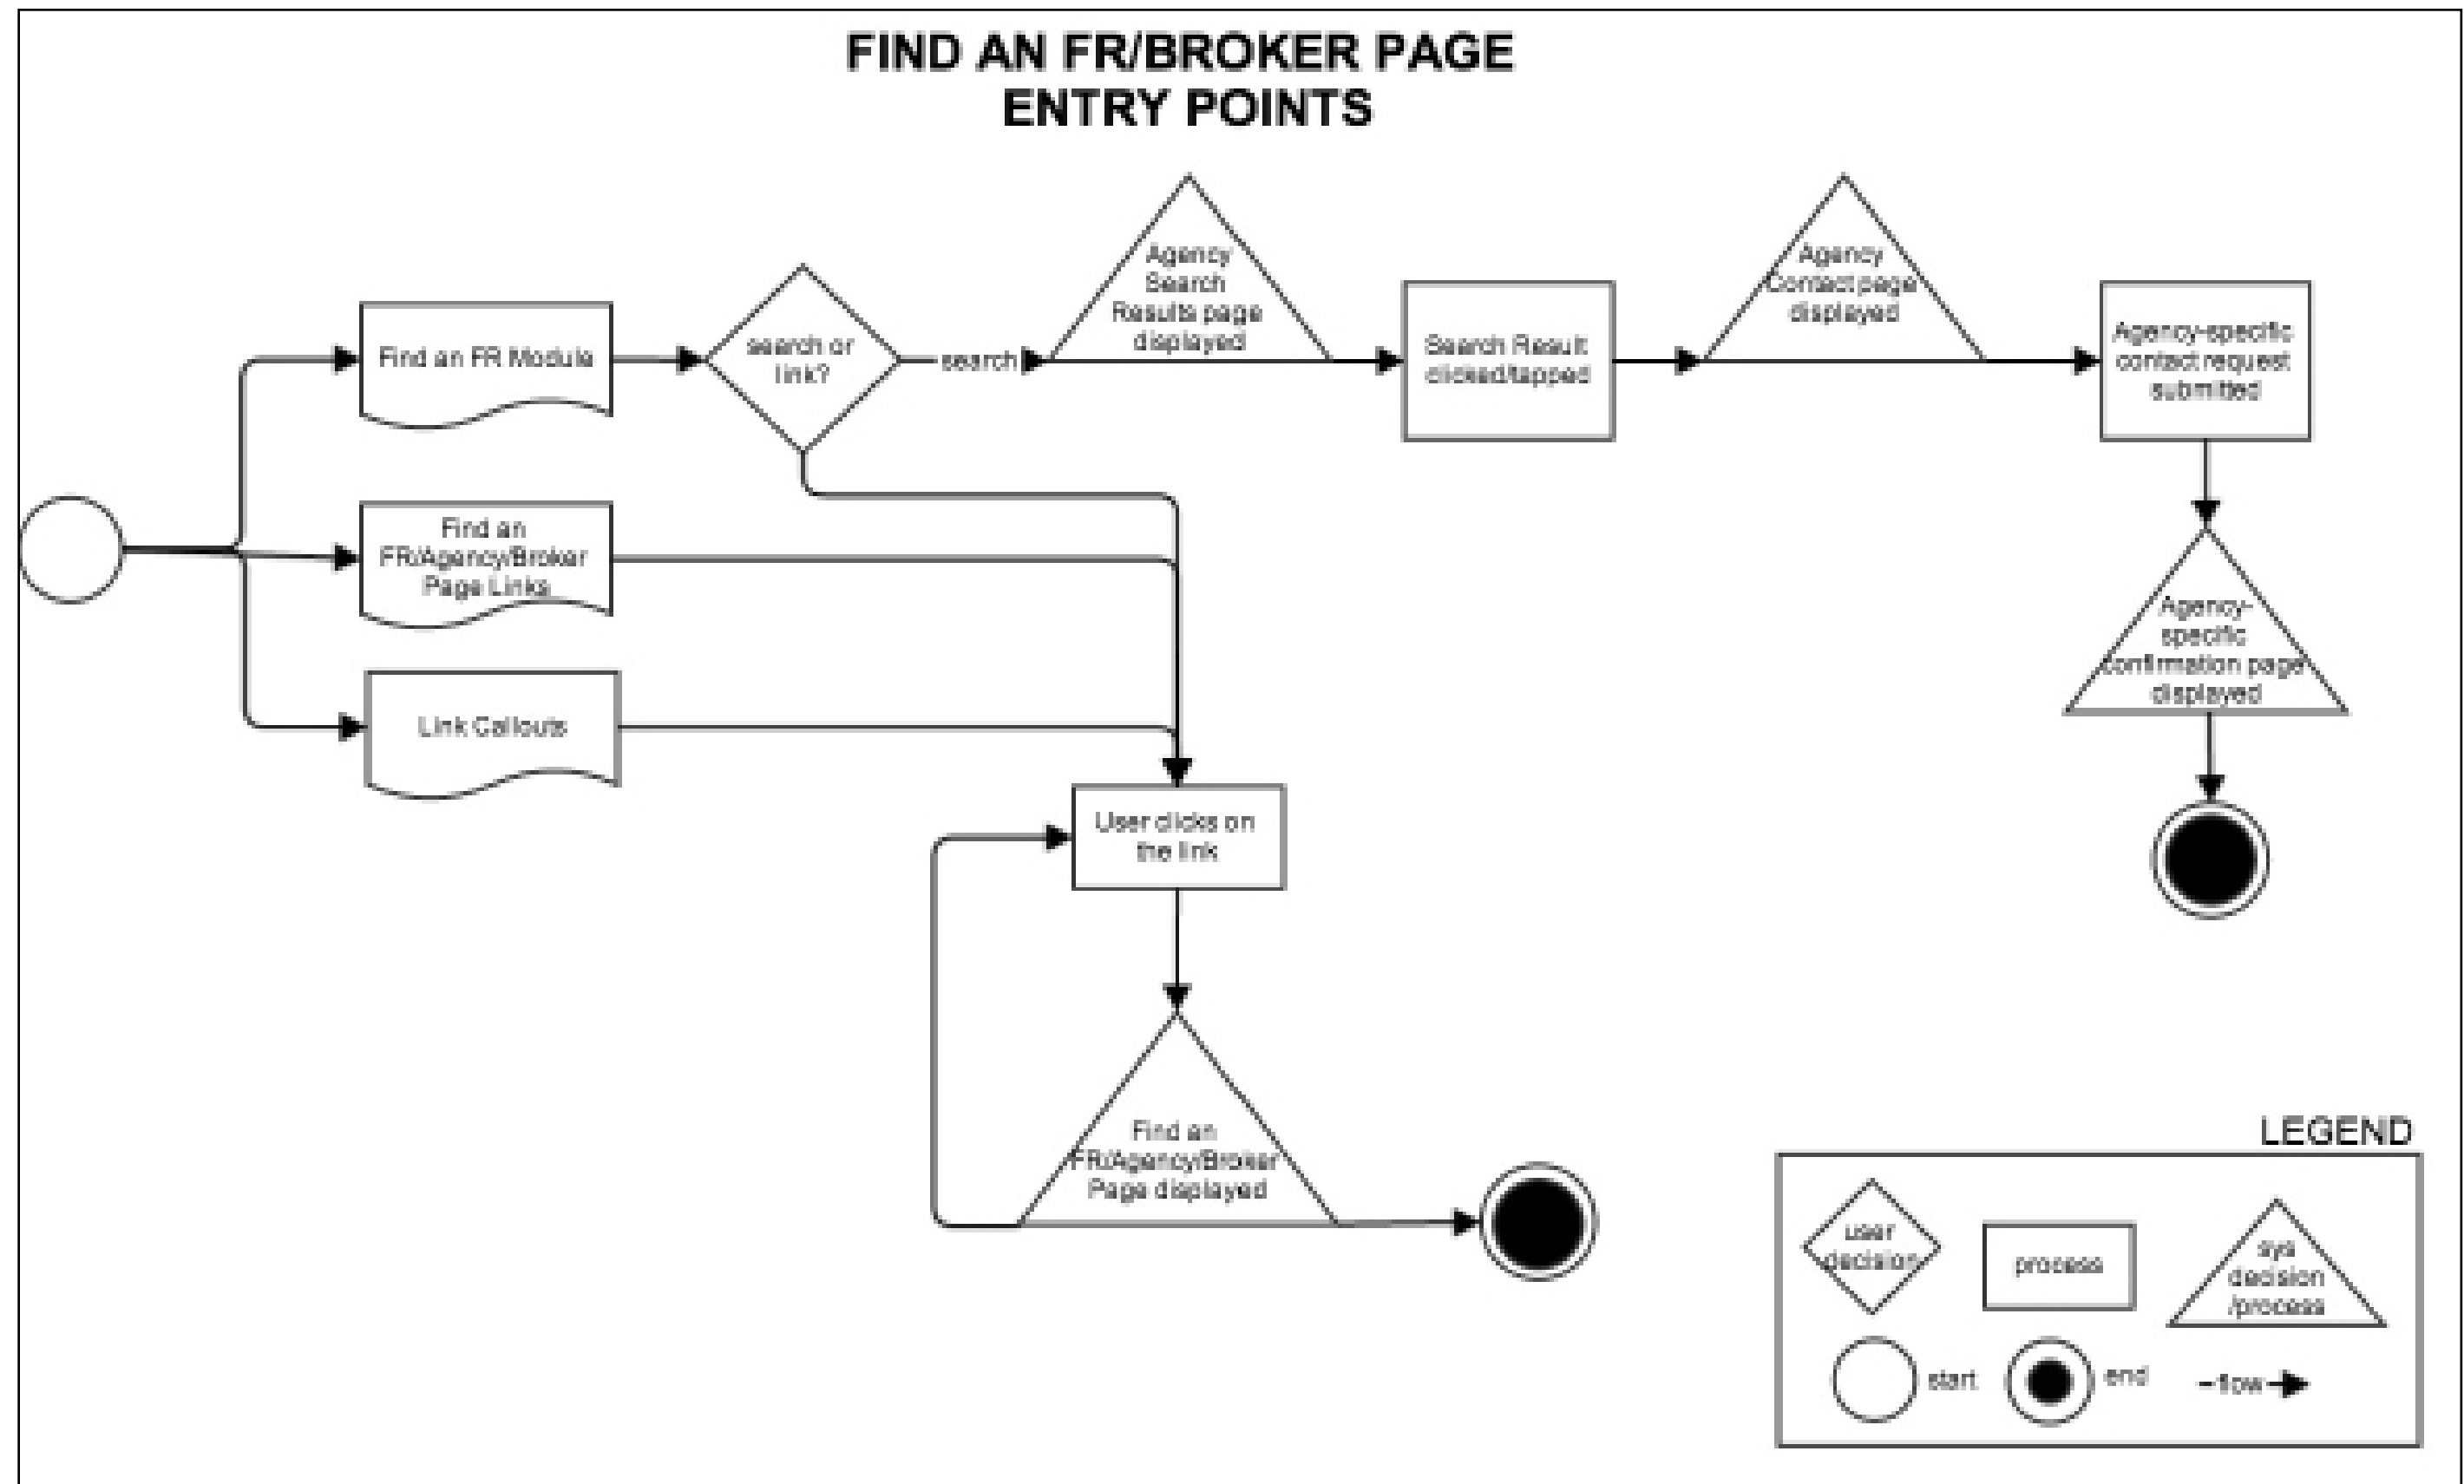

The flowchart below illustrates the different flows for the Find an FR/Broker/Agent pages.

Broker information will replace agency information in the confirmation details module's Agency Details tile.

Appendix E: Find an FR/Broker Page Entry Points

The flowchart below illustrates the different entry points to the Find an FR/Broker/Agent page.

Appendix F: PSDs

The following PSDs are used in this document (and for this project).

Module Code	PSD file name
M01	1280_Header_140909 and 480_Header_140814
M02	All PSDs
M03	1280_Product_Hub_140826 and 480_Product_Hub_140814

Appendix H: New & Revised Modules

Revision: November 19, 2014 - RBS

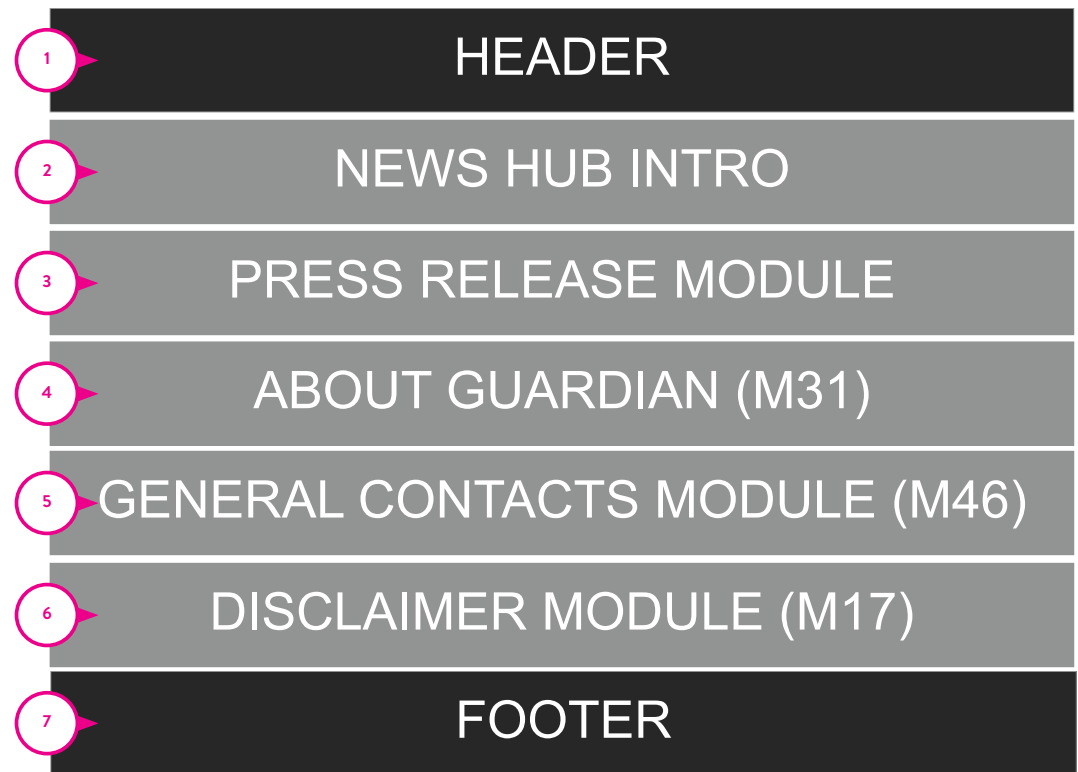

Press Release Detail

Revision: November 19, 2014 - RBS

TEMPLATE STRUCTURE

TEMPLATE REQUIREMENTS

The Press Release pages will be built from global modules and content modules. There will be many instances of the press release detail pages. The following table details the functionality of the template:

ID	NAME	DETAIL
1	Header	- Required - Standard Header Module will always be displayed on top of the page.
2	News Intro Header	- Required - See detailed specs on this module, a variation on M18 - New Module M51
3	Press Release	- Required - See detailed specs on this module, a variation on M31 - New Module M52
4	About Guardian	- Required - M31 - Article section module
5	General Contacts	- Required - M46 - General contacts module
6	Disclaimer	- Optional - M17 - Disclaimer module
7	Footer	- Required - Standard Footer Module is always displayed at the very bottom of the page.

NEWS HUB INTRO MODULE (NEW MODULE) M51

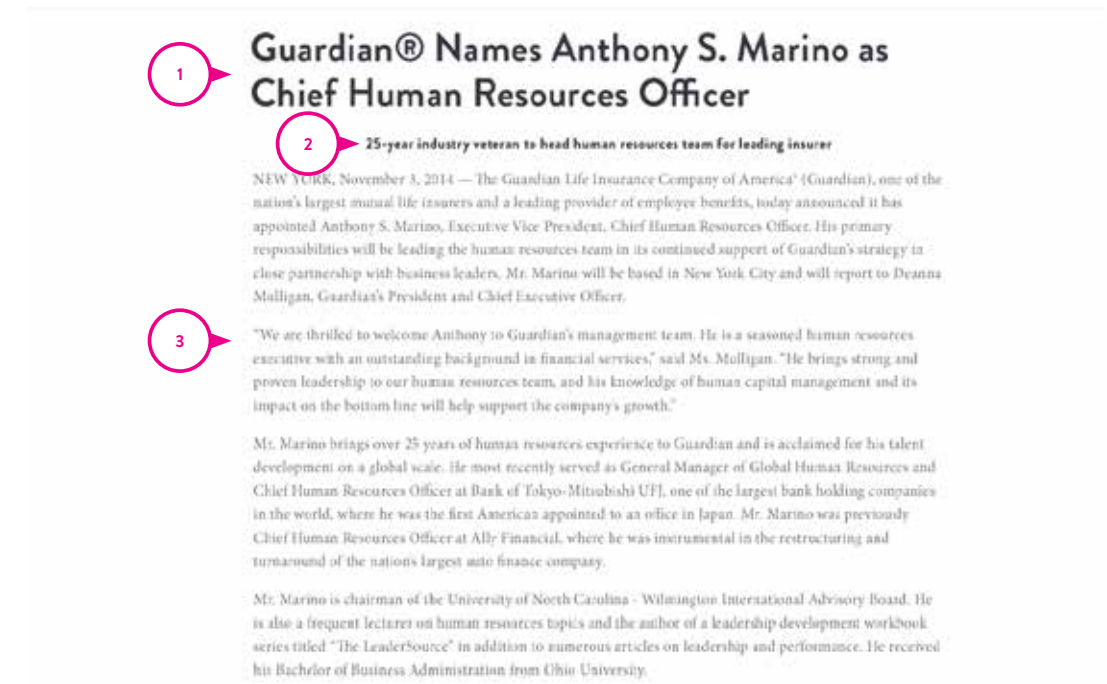

MODULE REQUIREMENTS

The News Hub Intro Module is based on a variation of M18 - New Module

ID	NAME	DETAIL	ACTION
1	Breadcrumbs	- Required - Format is “[Category] / [Sub-category]”, where the last entry ([Sub-category]) is a link. Example: “Insurance & Investments / Annuities” - Page: Guardian Sprint 4 Specs v4.4 pg.21 / #1	On click/tap, takes the user to the sub-category landing page.
2	Headline	- Required - Hero Headline (Style Guide pg.10 / #2) - Font: Brandon Grotesque / Bold / 70px / L: 70px / T: 0 / #363740	N/A
3	Share & print Buttons	- Required - Large/Medium/Small: (Style Guide pg.16 / #2)	- On click/tap on SHARE, the share drop-down will open and the user can share the article on social media/email. - On click/tap on PRINT, the print- friendly version of the article opens in a new tab and the printer modal is triggered.
4	Background	- Required - Light Grey - Hex: #D8DBE4 - RGB: 216, 219, 228	N/A

PRESS RELEASE MODULE (NEW MODULE) M52

Press Release Module is based on a variation of M31 - New Module

ID	NAME	DETAIL	ACTION
1	Title	- Required - New Style - Brandon Grotesque / Bold / 42px / L: 46px / T: 0 / #363740 - Title Case - Character Count: 100	N/A
2	Sub-Title	- Required - Font: Brandon Grotesque / Bold / 16px / L: 18px / T: 0 / #363740 - Character Count: 100	N/A
3	Body Copy	- Required - Minion Pro / Regular / 21px / L: 28px / T: 10 / #5A5A5F	N/A
4	Background	- Required - Off White - Hex: #f5f5f5 - RGB: 245, 245, 245	N/A

Press Release: About Guardian Module

Revision: November 18, 2014 - RBS

1 ABOUT GUARDIAN

2 A mutual insurer founded in 1860, The Guardian Life Insurance Company of America (Guardian) and its subsidiaries are committed to protecting individuals, business owners and their employees with life, disability income and dental insurance products, and offer funding vehicles for 401(k) plans, annuities and other financial products. Guardian operates one of the largest dental networks in the United States, and protects more than eight million employees and their families at 115,000 companies. The company has approximately 5,000 employees in the United States and a network of over 3,200 financial representatives in more than 80 agencies nationwide.

3 For more information about Guardian, please visit www.GuardianLife.com. →

4

ABOUT GUARDIAN (NEW MODULE)

ID	NAME	DETAIL	ACTION
1	About Guardian	- Required	N/A
2	Body Copy	- Required - Large/Medium: (Style Guide pg.13 / #3) - No color variation	N/A
3	'For more information...' CTA	- Required	On click/tap, takes the user to the corresponding article's detail page.
4	Background	- Required - - Off White - - Hex: #f5f5f5 - - RGB: 245, 245, 245	N/A

Pagination: M53 - New Module

Revision: November 19, 2014 - RBS

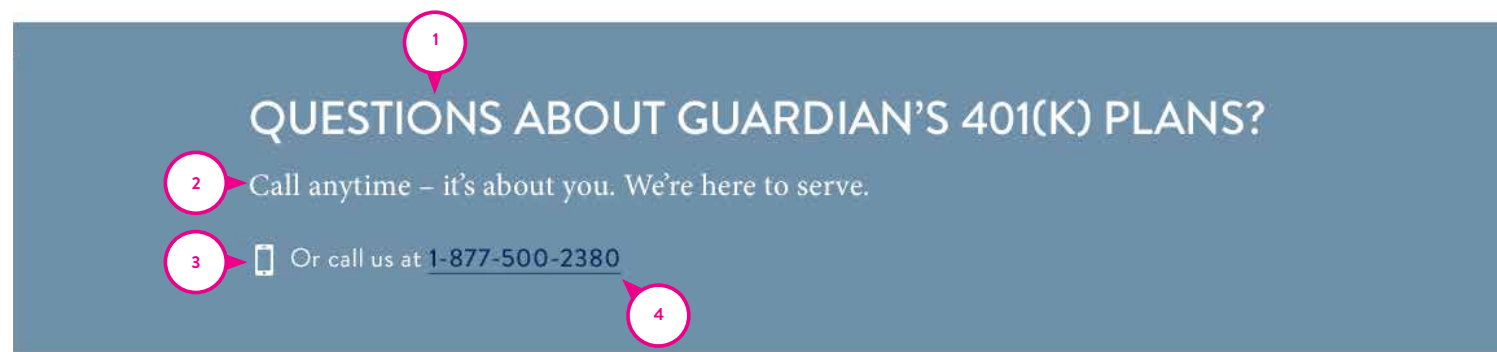

PAGINATION (NEW MODULE) M53

ID	NAME	DETAIL	ACTION
1	Previous Link	<ul style="list-style-type: none"> - Required - Emphasized Link: (Style Guide pg.14 / #7) 	On click/tap, takes the user to the previous page in found set's listing page.
2	Page Number	<ul style="list-style-type: none"> - Required - New Style - - Hex Color #597487 - - RGB: 89, 116, 139 - Number Font - - - Brandon Grotesque / Bold / 12px / L: 12px / T: 0 / #FFFFFF 	On click/tap, takes the user to the corresponding page number within the found set of presented content
3	Page Number	<ul style="list-style-type: none"> - Required - New Style - - Hex Color #6F91A9 - - RGB: 111, 145, 169 - Number Font - - - Brandon Grotesque / Bold / 12px / L: 12px / T: 0 / #FFFFFF 	<p>Designates the current page location within the corresponding found set.</p> <p>No link associated - static</p>
4	Next Link	<ul style="list-style-type: none"> - Required - Emphasized Link: (Style Guide pg.14 / #7) 	On click/tap, takes the user to the next page in found set's listing page.

M15 - Generic Footer: New 401(K)

This module is the generic version of a prominent call to action to facilitate contact and conversation with a Guardian Representative.

- 1) Find an FR with LBS variation
- 2) Find an FR without LBS variation
- 3) Find an employee broker variation
- 4) Find a Guardian agency variation

FIND AN FR MODULE (401K) - SPECS

ID	NAME	DETAIL	ACTION
1	Module Header	- Required - Large/Medium/Small: (Style Guide pg.12 / #3)	N/A
2	Sub-head	- Required - Large/Medium/Small: (Style Guide pg.15 / #1 & #2)	N/A
3	Phone Icon	- Optional - Size 22px x 22px - Color Off White Hex: #f5f5f5 RGB: 245, 245, 245	N/A
4	Call Us CTA Link	- Optional - Character limit (link text) = 35	On click/tap on "800" number on smart phone User is presented with the standard OS dialog box/alert"

Functional Specifications.
